

ALA District 28
Executive Meeting
Community Service
September 17, 2023

Madame District President Rebecca and District 28 members,

1. Our Department Chairman, Patricia Galatioto, encourages that the Unit ALA Community Service chairman work as one within their communities. She is suggesting projects that Units can work with their communities throughout the year, such as health (helping homeless veterans), recreation (helping public park cleanup or adopt a road), safety (promote anti-bullying program at a local school), beautification (conduct a cleanup campaign), libraries (hold a book drive or take books to a nursing home) and Community Councils (try to attend city council meetings to find out how ALA can work with the community).
2. If Units find a project that works well in your area, please share with the District as it might be something that would work in other Units too.

Sherryl Panek
District 28 Community Service Chairman
