

American Legion Auxiliary

Department of California

District 28

Leadership report

September 2022

Hello members~

As our Auxiliary kicks off, we are boarding the Friendship Train serving our veterans. Climb aboard and let's make this the best year ever!

The Northern workshop for the Department will be held on September 25th. I hope some of you registered for this workshop. It should be very informative.

For any Unit who would like to hold a training to meet your specific needs, please reach out and I will be happy to plan one with you. In the meantime, encourage your members to go to the National website and take the ALA Academy courses. They hold a plethora of information. These are for new members as well as the more seasoned ones. We never know everything and there is always something to learn.

Please spread a nature of goodwill throughout your membership and please remember our mission. We are here for the Veterans, their families, and our community.

Respectfully submitted~
