What about our women veterans?

AB 1692- Existing law establishes the Department of Veterans Affairs. The department, among other services, provides veterans and their dependents and survivors with assistance in processing service-related disability claims, assistance in obtaining affordable housing, and information about health ailments associated with military service.

This bill would require the department to establish a program to fund, upon appropriation by the Legislature, an academic study of mental health among women veterans in California, as specified. The bill would require the department to submit a report summarizing the findings and recommendations of the study to the Legislature no later than July 31, 2024.
